

# COST SAVING EXAMPLES

How can DS-1 reduce my expenditure on detergent and related cleaning costs?

## **1. Reduce Labor Costs**

---

Current Cost: Storage, stock management and staff training related to many different types of detergents and cleaners.

DS-1 Solution: Save time with one multi-purpose product that outperforms specialist cleaners.

Current Cost: Average cleaners require significant physical effort to use.

DS-1 Solution: Powerful cleaning action reduces physical effort.

Current Cost: Some surfaces require a cleaning process followed by a disinfectant process, and often a rinsing process.

DS-1 Solution: One application will clean and disinfect.

## **2. Reduce Water Costs**

---

Current Cost: Rinse cycle in industrial washing machines.

DS-1 Solution: Requires up to 50% less rinsing water.

Current Cost: Rinsing floor surfaces and equipment to wash away toxic residue.

DS-1 Solution: Non toxic and naturally biodegradable properties reduce the need for rinsing.

## **3. Reduce Product Costs**

---

Current Cost: 'Run off' drains clogged by detergents and debris.

DS-1 Solution: DS-1 'run off' will keep drains clear reducing the need to use additional chemicals to clear drains.

Current Cost: Separate detergent, bleach and softener required for laundry use.

DS-1 Solution: One product cleans, brightens and softens.

Current Cost: Cleaning and disinfecting surfaces with two separate products.

DS-1 Solution: One product simultaneously cleans and disinfects.

## **4. Reduce Environmental Costs**

---

Current Cost: Water usage costs

DS-1 Solution; Uses less water for cleaning and rinsing.

Current Cost: Toxicity containment costs

DS-1 Solution: Non hazardous product does not need to be contained from the environment

## **5. Reduce Other Costs**

---

Current Cost: Perishable surfaces worn down by harsh chemicals.

DS-1 Solution: non-wearing on perishable surfaces

Current Cost: Storage

DS-1 Solution: Concentrated and single product reduces storage space required

Current Cost: Hazardous materials compliance costs; staff training, storage and protective clothing

DS-1 Solution: DS-1 is rated non hazardous.
