

# DS-1 Commercial and Domestic Use Guide

---

Turbo charge anti-bacterial and cleaning properties by dissolving in hot water.

## Laundry detergent

### Recommended amount

- Use DS-1 in place of ordinary laundry detergent. No softener or bleach is needed.
- Restores whiteness and softness to yellow-stained and hardened clothes.
- Odor-free and healthy, with disinfectant power. Rinses out quickly, helping to save both water and time.

## Soaking detergent for baby goods

### Recommended amount

- Use as a detergent for soaking babies' bottles, diapers, underwear, and toys.
- Soak for approximately 5 minutes at 20 degrees C, 3 minutes at 40 degrees C, or momentarily at 50 degrees C to disinfect. (These times are based on results from a test performed according to health inspection standards set by Japan's Ministry of Health, Labour and Welfare.)
- Non-irritating and safe for babies' delicate skin. Also will not damage textiles.

## Dishwashing detergent

### Recommended amount

- DS-1 leaves utensils completely clean for better hygiene.
- Use to clean and disinfect cutting boards and dish cloths.
- Remove tea stains by adding DS-1 to hot water and soaking the cup for 5 - 10 minutes. Then just rinse.

## Kitchen cleaner

### Recommended amount

- Dampen a cloth in a DS-1 solution and wipe kitchen surfaces. Then wipe again with water.
- Disinfecting action prevents the growth of bacteria, helping you keep your kitchen clean and healthy always.
- Use to clean ventilation fans, gas stoves, refrigerators, microwave ovens, and floors. DS-1 can also be used to prevent odors in food storage containers.

## Household cleaner

### Recommended amount

- Ideal for households with small children and elderly or ill persons, as well as for pet-owners.
- Gentle on people and the environment. The disinfecting and deodorizing effects

keep the indoors clean and healthy.

- Use to clean and disinfect bathrooms/windows/door handles, to prevent bathroom mold, and to deodorize pet areas.

### A broad range of other uses

#### Recommended amount

- Use DS-1 to disinfect toilet seats when traveling. Simply spray and wipe with a tissue.
- Use DS-1 to clean car interiors. Disinfect and deodorize the steering wheel and dashboard for a more pleasant car environment.
- Clean ashtrays with DS-1 to eliminate stains and unpleasant odors.
